5 examples from my work out of 37 bug reports I did for project 3.

<u>My example 1:</u>

Funnels API - No authorization needed to get the list of all Funnels

Environment:

- Windows 11 Pro OS build: 22631.4037, Google Chrome Version: 128.0.6613.85
- Postman for Web: Version 11.9.1-240820-0942, Browser & OS Chrome 128, Windows 10

Priority: High

Description:

There is no authorization needed to get the list of all funnels.

Steps:

1. Send GET request to url: https://cerebrumhubcrmlite.bubbleapps.io/api/1.1/obj/funnel

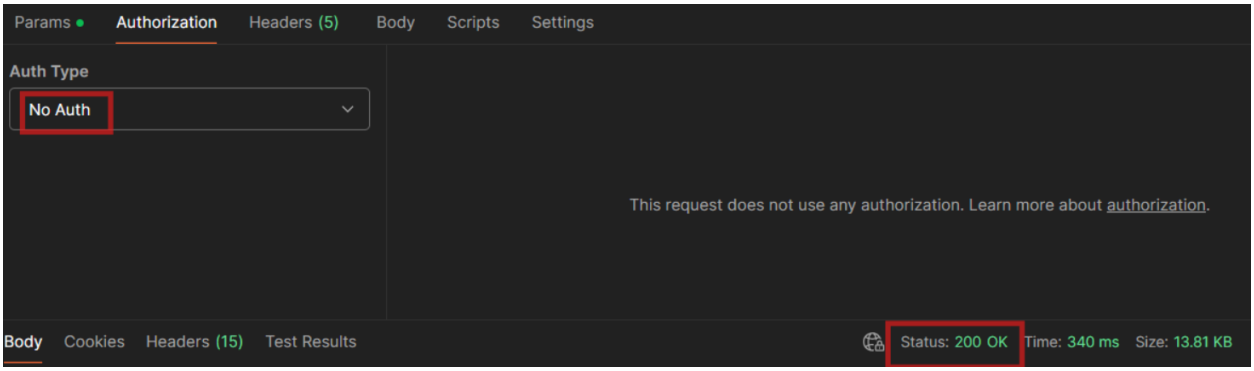
Open: "Authorization" tab and insert: "No Auth" under Auth type

Expected result:

✅ The request must return: "401 Unauthorized" response.

Actual result:

❌ The request returns: "200 OK" response:



```
    }
        ],
        "count": 27,
        "remaining": 0
    }
}
```

My example 2:

Funnels API - Correct response not shown when limit is set to 0

Environment:

- Windows 11 Pro OS build: 22631.4037, Google Chrome Version: 128.0.6613.85
- Postman for Web: Version 11.9.1-240820-0942, Browser & OS Chrome 128, Windows 10

Priority: High

Description:

When "limit" is set to 0, the request response will still show the list of all the created funnels.

Steps:

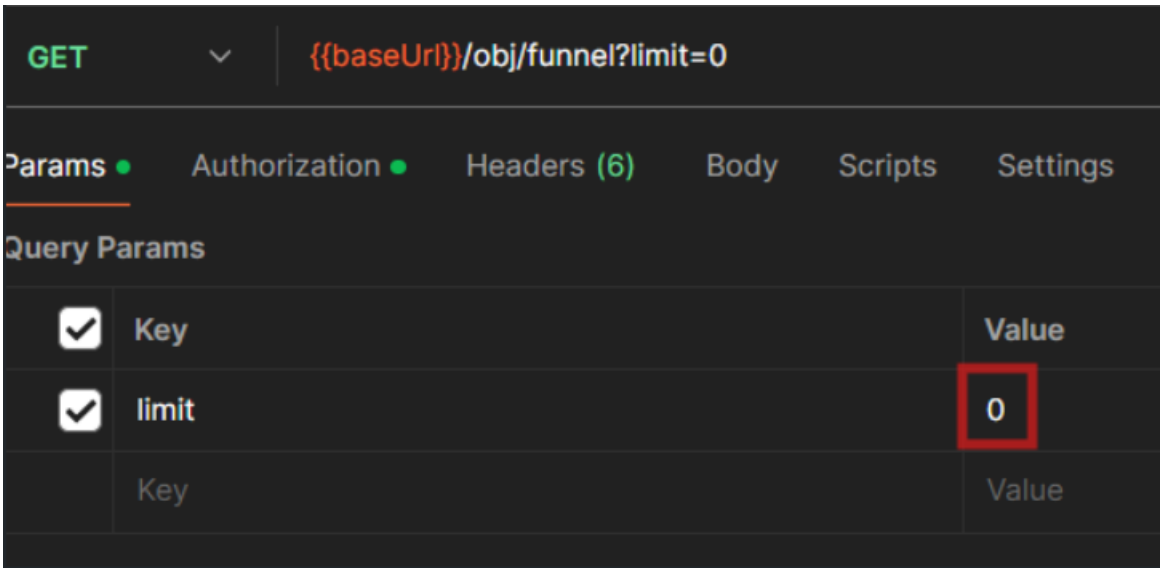
1. Send GET request to url: https://cerebrumhubcrmlite.bubbleapps.io/api/1.1/obj/funnel?limit=0

Expected result:

✅ The response must show 0 items

Actual result:

❌ The response shows the list of all the created funnels:



```
 }
        ],
        "count": 42,
        "remaining": 0
    }
}
```

My example 3:

Funnels API - Possible to create Funnel with empty body

Environment:

- Windows 11 Pro OS build: 22631.4037, Google Chrome Version: 128.0.6613.85
- Postman for Web: Version 11.9.1-240820-0942, Browser & OS Chrome 128, Windows 10

Priority: High

Description:

It is possible to create a funnel with empty body.

Steps:

1. Send POST request to url: https://cerebrumhubcrmlite.bubbleapps.io/api/1.1/obj/funnel

```
{

}
```

Expected result:

✅ Instead of response: “201 Created” an informative error message should be displayed to the user indicating invalid input. For example: “400 Bad Request”.

Actual result:

❌ “201 Created” response is displayed:

```
{
    "status": "success",
    "id": "1724768370025x145712362092373920"
}
```

My example 4:

Deals API - CRM does not display a new deal which is made with only mandatory fields

Environment:

- Windows 11 Pro OS build: 22631.4037, Google Chrome Version: 128.0.6613.85

Priority: High

Description:

A new deal created with only mandatory fields via API is not seen in UI.

Steps:

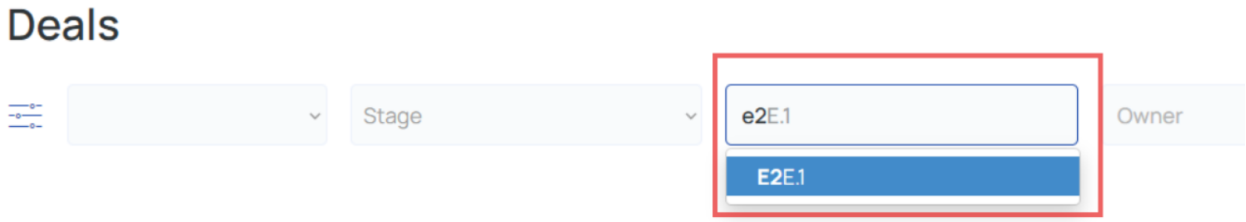
1. Open the: “Deals” page: https://cerebrumhubcrmlite.bubbleapps.io/admin_dashboard?q=DEALS
2. Click on: “Switch to List view” left to the: “New Deal” button
3. In the: “Deal” search bar insert “E2E”, other fields leave empty
4. Once: “E2E.1” gets highlighted in UI, click on it

Expected result:

✅ The new deal which is made with only mandatory fields is seen in the: “Deals” page

Actual result:

❌ Although the new deal: “E2E.1” is created and seen in the search bar, it does not show and “No deals yet” is displayed:



Deals

testname | Stage | E2E.1 | Owner

No deals yet.

My example 5:

Notes API - Possible to update a Note and replace a Note with empty body

Environment:

- Windows 11 Pro OS build: 22631.4037, Google Chrome Version: 128.0.6613.85
- Postman for Web: Version 11.9.1-240820-0942, Browser & OS Chrome 128, Windows 10

Priority: High

Description:

It is possible to modify a note and replace a note with empty body.

Steps:

1. Send PATCH request to url: https://cerebrumhubcrmlite.bubbleapps.io/api/1.1/obj/note/:UniqueID

```
{

}
```

or

1. Send PUT request to url: https://cerebrumhubcrmlite.bubbleapps.io/api/1.1/obj/note/:UniqueID

```
{

}
```

Insert UniqueID: 1725365391323x462334289236287170

Expected result:

✅ A note is not updated or replaced. Instead of response: “204 No Content” an informative error message should be displayed to the user indicating invalid input. For example: “400 Bad Request”.

Actual result:

❌ “204 No Content” is shown as a response:

PATCH {{baseUrl}}/obj/note/:UniqueID
